#### **About FLYNT**

With its WEALTH ecosystem, FLYNT is developing a proprietary technology platform that enables the holistic and independent management of complex wealth structures for private and institutional clients. FLYNT’s WEALTH ecosystem will connect the dots of bankable and non-bankable assets to unlock multiple opportunities and impacts in liquidity, risk and wealth management and beyond. FLYNT’s WEALTH ecosystem meets the highest security standards and stands-out by independent software modules that enable clients full transparency and control over their total wealth network at any time.
